How this book works

Every stop has the same shape: 20 new words, then short exercises with different question types. Work with a pencil, one stop at a time, and check the answer key only when you have finished.

- Try without a dictionary first. Guessing is part of learning.
- Write your score after each exercise, then your stop total in the table below.
- Use the word list at the back to test yourself. Cover the word, say what it means.
- Do the final test again after a week. We will see how far you have come.
- A low score is fine. Read each explanation, then try again.
